

# Errata

## Page 51 – paragraph 2.114

‘At present the MHRA only maintain a list of devices at the lowest risk (Class I)’

*The MHRA have asked that this is clarified as follows*

**‘At present the MHRA only maintain a list of generic device categories produced by each manufacturer for the lowest risk device class (Class I)’**

## Page 213 – paragraph 5

We have received the following statement.

**‘There has been a report in The Times Scotland on 21<sup>st</sup> May which describes settlement of the pelvic mesh cases brought against Johnson & Johnson. This story may be published in other newspapers and online news sites. The settlement sum quoted in that story is not true and is significantly greater than the actual sum. For reasons of confidentiality, none of the parties may make public the settlement sum.’**

*Joint statement from Duncan Batchelor of Clyde & Co LLP representing Johnson & Johnson and David Short of Balfour + Manson LLP representing the claimants.*
